

*Patrick Smith has been my tennis coach for the past nine years. He has improved my tennis game tremendously.*

*Thanks to Pat, I have a well-rounded game and my play is strong in all aspects. Without Pat, I do not believe that I would be the top level collegiate athlete that I am today.*

*His approach to teaching is one of tough love and father like, and because of this, my game has improved beyond what I thought was possible.*

*Pat is knowledgeable in all areas of tennis, whether it be technique, transition, or insightful game plans. I feel that others would benefit greatly from him as their coach, whether they are young children wanting to someday play in high school and college or adults wanting to be more competitive while playing in round robins/USTA tournaments, and every type of player in between.*

*Pat Smith is a tremendous asset to any coaching staff!*

*Sincerely,*

*Jordan Vasarkovy*
